

Your expert companion in academic writing

Accelerate your research with AI optimized for science and built for researchers like you.

Trusted by 3000+ labs, institutions, and journals

nature

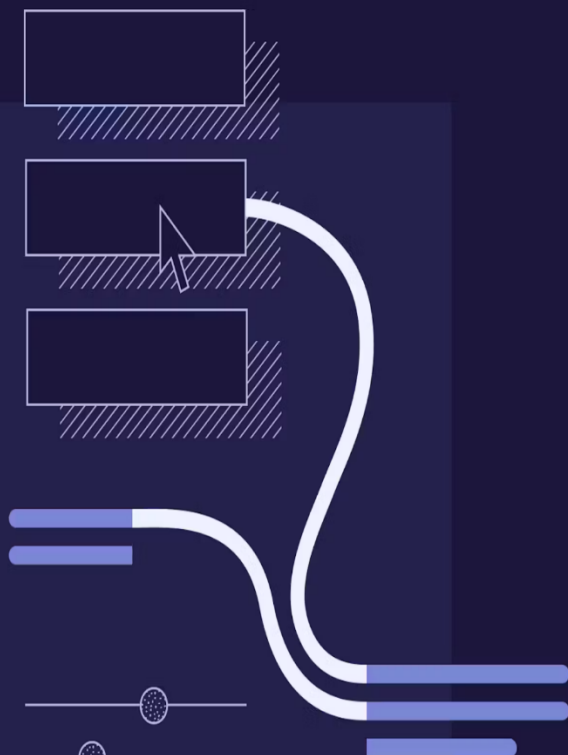

"Our research group often demands an editing service to publish our articles in high impact journals on Agronomy and Horticultural Sciences. We have been using the AI Translation and Editing services from Research Square [AJE] since the beginning. This new technology is fast and very useful, and the web platform is easy to handle. As a result, we found out that the acceptance of our manuscripts in good journals is faster. We highly recommend the AI Translation/Editing service (Portuguese to English) of Research Square [AJE] to all research groups."

Prof. Dr. Sergio Ruffo Roberto

Revise your paper with ease

Ensure your writing meets the highest standards of academic communication.

Streamline your editing process

Curie quickly identifies areas in your manuscript that require revision or refinement, saving you time.

Elevate the quality of your academic writing

Curie suggests improvements to clarity, precision, and style, so that you communicate your findings more effectively.

Tailor Curie's suggestions to your needs

Curie allows you to maintain control over your writing by delivering edits as tracked changes, allowing for easy review.

Make a stronger impression

Curie refines your language and structure, helping you make a stronger case for your scientific findings. With improved writing, your work will stand out and make a lasting impact.

Curie for Microsoft Word

Curie seamlessly integrates with Microsoft Word, bringing expert editing for researchers to where you already work.

Simplify academic writing

Join the growing group of authors, labs, and institutions writing with Curie every day.
